Under Ontario regulations, a consumer with an account that falls into one of a prescribed set of classes as described below, is to be billed under the **Regulated Price Plan (RPP)**.

Toronto Hydro automatically enrolls some accounts in the RPP based on the consumer's consumption and demand profiles as described in Step 1, sections 1 through 3. However, some accounts, as described in Step 1, sections 4 and 5, are not automatically enrolled and must self-declare account eligibility with Toronto Hydro in order to be enrolled in the RPP.

In accordance with section 3.5 of the Ontario Energy Board's Standard Supply Service Code, RPP consumers have the option of being charged the RPP Time-of-Use (TOU), Ultra-Low Overnight (ULO) or Tiered pricing. Consumers that have an interval meter also have the option of being charged the Hourly Ontario Energy Price (HOEP).

If you're interested in self-declaring and having your account enrolled in the RPP, please complete the steps below.

At any time after the self-declaration, you can choose to change your price plan option. Requests to change your price plan can be emailed to **billingspecialist@torontohydro.com** and should include your account number and your service address. If the request is submitted by a third party, please include a letter of authorization permitting the third party to act on your behalf. Please note that changes to your billing may not take effect until your next billing period, at the earliest.
