

List of restricted feeders

The following stations' bus and feeders are restricted. According to the Ontario Energy Board (OEB), a "restricted feeder" means any feeder owned by the distributor that has no additional short circuit capacity for connection of generation facilities, even if the constraint is caused by an upstream asset that it does not own.

The data in the table will be updated every three months, as required by the OEB.

Station name	List of feeders' designations
Sheppard TS, Bus EZ	47-M4, 47-M6, 47-M1, 47-M5, 47-M2, 47-M8, 47-M7, 47-M3
Woodbridge TS, Bus BY	D6-M1, D6-M2, D6-M3, D6-M4, D6-M5, D6-M6
Leslie TS, Bus BY	51-M1, 51-M3, 51-M5, 51-M7, 51-M2, 51-M4, 51-M6, 51-M8
Leaside TS, Bus AQ	A-5-L, A-6-L, A-10-L, A-12-L, A-13-L, A-16-L, A-17-L, A-21-L, A-22-L, A-26-L, A-1-L, A-3-L, A-28-L, A-2-L, A-4-L, A-27-L, A-11-L, A-14-L
Richview TS, Bus BY	88-M1, 88-M3, 88-M5, 88-M7, 88-M2, 88-M4, 88-M6, 88-M8
